

PARISHIONERS CORRESPONDENCE

COMMENTS RECEIVED CONCERNING A40 TRAFFIC CALMING

dougskeggs@aol.com

Wed 25/09/2019 18:25

Sadly I cant attend the meeting myself Nick but could my comments please be put before the meeting.:-

Living in School Lane gives me a special perspective on safety. Every school morning mothers and children wait for ages for gaps in the traffic to school lane or cross into the traffic hoping the drivers will slow down. As well as cars hoping to cross into school lane across the line of traffic heading into Ross many speeding late for work.

Its a "no brainer" for any project in this area that a pedestrian crossing or traffic lights which are pedestrian activated are needed for school children and mothers. Not forgetting the other residents who wish to cross this road which is only going to get much busier with so very much development going on and planned. It should be a key safety aspect.

Many of the pedestrians cross between school lane and weston park.

SILTING OF THE STREAM AT PENHELIGON HOUSE

Thanks Nick

I am in London on 3/4th so cant attend. We've only recently moved here, in January and the previous owners told us that in the past, since 2009 when the house was completed, the Council has arranged for an annual clearance of the stream to protect all the owners of land adjacent to it.

So I am only enquiring if this is still the case, and if so, when can it be done, as the winter is coming and rainfall is likely to increase which will only affect one residential property, namely our house.

I hope the meeting goes well and look forward to your response in due course
